Subject: Global Water/Santa Cruz Water Co. Rate Increase Request

To the Chairman and Commissioners,

I am writing in regards to the proposal of Global Water to increase their sewer and water rates. I am strongly against this increase in Maricopa. Let me explain a reason that I didn't hear come up during the recent public meeting in Maricopa on Dec 2.

I was an attendee of the Maricopa Citizen's Leadership Academy. This is a 6 week course offered by the city to help educate the citizens of how the city operates. On one evening, a representative from Global Water came in to discuss the issues they are facing. He told us that Global Water was planning on going public until the downturn in the housing market. I believe that Global Water's request to increase rates is purely to help them get the company in tip top shape so they can go public. This is only a tactic to line their pockets with money from a public offering. I don't believe that their finances are in bad shape since they are still making a profit.

There are many other reasons not to allow this rate increase, but I thought I would share this reason that I haven't heard others bring up.

Thank you for your consideration to this matter.
